

# A WALK ON THE DARK SIDE

words by Elisabetta Romano

A FEW MONTHS BEFORE THE LAST CHAPTER OF THE SAGA, THERE IS ALREADY A DIFFERENT ATMOSPHERE IN THE UNIVERSE. IN THE ETERNAL STRUGGLE OF DUALISMS, GOOD AND BAD, BLACK AND WHITE, ONE THING IS SURE: THE FORCE RUNS STRONG IN THESE ONES!

With its enviable silhouette, its essential aesthetics, its absolute whiteness, and its flat aluminium disc, **Luà L** by **icone** Luce has all the characteristics which turn a lamp into a special object. Materials, shapes and colours, all contribute to the final design. A delight that immediately enchants and reminds of far far away galaxies.

As a result of the collaboration between Zaha Hadid Design and Leblon Delienne, **Le-A** is a table with a sculptural shape recalling the dramatic dynamism the famous architect is widely known for. Inspired by Princess Leia's iconic hairstyle and braids, this table explains the complexity of Zaha Hadid Design's distinctive language with careful craftsmanship.

Originally conceived in 1919 by the architect J.J.P. Oud, the **Elling Buffet** has now been rediscovered thanks to the Cassina's historic carpentry workshop. A sideboard characterized by a peculiar design of pure geometry, between horizontal surfaces and vertical supports, the result is a grid of contrasts and dynamism, of voids and solids, on which containers and shelves alternate.

Overcoming the stereotypes of mosaic and decoration and exploring new paths, the new **Jointed** collection by Mosaico+, has been designed to override the classic modularity. The chip is engraved with a graphic motif providing the basis for five different types of decoration and with the option of using a tone-on-tone grout or a contrasting one, to enhance the material's vibrancy.

**Vader** is an evocative name that inspires contrasting feelings of hostility and unconditional love, a very powerful emotional dualism. In the same way, designer Luca Nichetto's Venetian origins and David Design's Scandinavian essences harmoniously created this ceramic lamp.

Perfectly in line with the current trend which no longer requires the classic rectangular table in the centre of the room, **MDF S Table**, designed more than ten years ago by Xavier Lust, features new reconstructed marble finishes elegantly complementing its sculptural base.

Straight from a universe where the vacuum cleaner, through the unmistakable sound effects of the saga, responds to commands from those who control it, the **POWERbot™ VR7000 Star Wars™ Special Edition** came to life. The suction force of Samsung's new vacuum cleaner is the one of a real Sith!

Known for his handmade, nature-inspired and extravagant designs, **KENNETHCOBONPUE** used these qualities to reimagine the beloved Star Wars universe. The **Imperial TIE Fighter Wings** is inspired by the unforgettable symbol of the imperial fleet, capturing its agility and strength.
