

Galliano DelightFull

From the Galliano Family, comes a chandelier made of steel tubes in a round and unique shape. An expressive design inspired by jazz music, Galliano chandelier has a sculptural shape that is versatile yet contemporary. A balanced design which becomes even more beautiful when light is casted through its pipes.

Hoops Axo Light

Hoops, by designer Giovanni Barbato, uses curved wire anchored to a coil core with integrated dimmable LEDs, all finished in 24k gold. The collection is available in four suspended versions and two ceiling versions. With up and downlight functions, the LED light becomes a fulcrum of golden circles swirling around it.

Billy TL Kalmar Werkstätten

Billy represents simplicity of materials and construction at a glance. Like the Billy floor luminaire, the tabletop lamp features three matt-lacquer metal pieces connected to unstained wood, finished in a protective coating. The 17.5cm diameter lampshade ensures directional light in work areas, and Kalmar Werkstätten's natural-colour signature cord reflects the piece's industrial heritage.

Arbor Icône Luce

A tribute to nature, Arbor arises from a bundle of linear elements gathered to form a bouquet of stems for light flowers. The product is available in hanging version and ceiling light, with twelve, 20 or 30 lights. Lighting parts are made of aluminium, while beams are made of chromed cold-drawn iron.

Fata Morgana Italamp

Fata Morgana, designed by Edward Van Vliet, is an unusual illusion. The luminaire emanates ripples of light from its veiled source, creating a radiant presence that adds a touch of mystery and magic to every environment. If suspended from the ceiling, its charm turns every room into a mystic sanctuary.
