

1. Notredame Karman

Light filters through Notredame evoking the magnificence of Gothic cathedral stained-glass windows. The rose window structure of this collection of ceiling, pendant and wall lamps is highly decorative, realised in white marble powder. Notredame is an LED light source radiating both direct and indirect light through the diffuser.

2. Shanghai Kinetura

Focusing on organic and humancentric lighting, Shanghai is Kinetura's first metamorphic chandelier. It transforms from a cylinder, shining up and downward to an open lantern spreading its light around. Shanghai has an integrated eye that detects movement so it can respond to people passing by.

3. Caveau Icône Luce

Designed by Marco Pagnocelli, Caveau is a new wall lamp concept; a fully retractable product combining the prerogative of a spotlight with the size and application of a wall lamp. Caveau opens and closes away from and towards the wall, a movement which is fully automated and consists of a round element hinged to the wall.

4. Fantasia Specchio Kolarz

Fantasia Specchio is a retro glass pendant available in four colours - gold, chrome, white and dark brown. The patterned glass is transparent when lit but has a mirrored finish when turned off. Available with a range of sizes and frames depending on configuration, colour options for the cable are also available in white or pale brown.

5. XMOOVE Licht³

XMOOVE, available as a pendant or desk lamp, can increase its size almost fivefold. The light is delivered complete and fully functional from a selective sintering laser machine. 3D printing allowed a certain level of delicacy in manufacturing, producing a new kind of aesthetic with dimmable LEDs in a warm-toned light.

6. Orient Black Lightyears

Orient Black is available in two original pendant sizes and can also be commissioned in a larger size. The three options assume the same organic shape without being identical. The large pendant creates opportunities for interior decoration as it can be suspended high up to illuminate a large round table or form part of clusters.
