

Description

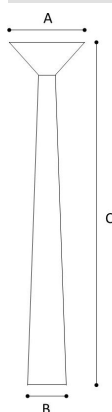

Lama is a collection of table, floor and ceiling lamps produced in three sizes and different finishes. It is made of a very thin metal sheet that gives great elasticity to the object. The upper closure is made of plastic material. Various finishes are offered: from matte varnishes, in basic or bright colors, to metallic finishes, typical of the Icone brand. Simplicity of forms and multiplicity of textures make Lama suitable for both domestic and hospitality environments. Lama is the first collection designed for Icone by Giulio Cappellini together with Leonardo Talarico.
